

TEAM MANAGEMENT FOR COACHES

Since we have transitioned to the GotSport platform all of your teams can be found in your personal account you created once they are assigned to you. Below is some helpful information on where to find things in your new account.

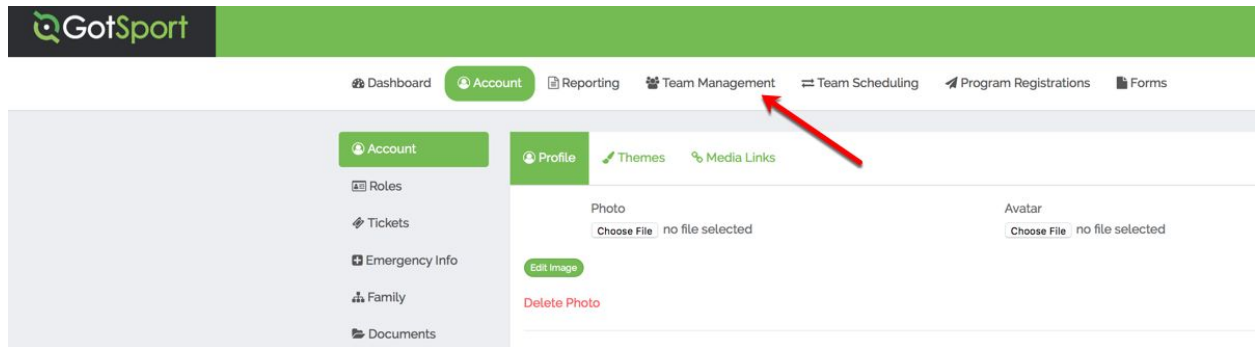

NOTE: Fall 2020 - All Dakota Challenge tournaments are only requiring you to email the tournament director (td@southdakotasoccer.com)

your roster to be approved and returned to you to keep with you at the games. Player cards will not be checked at these tournaments.

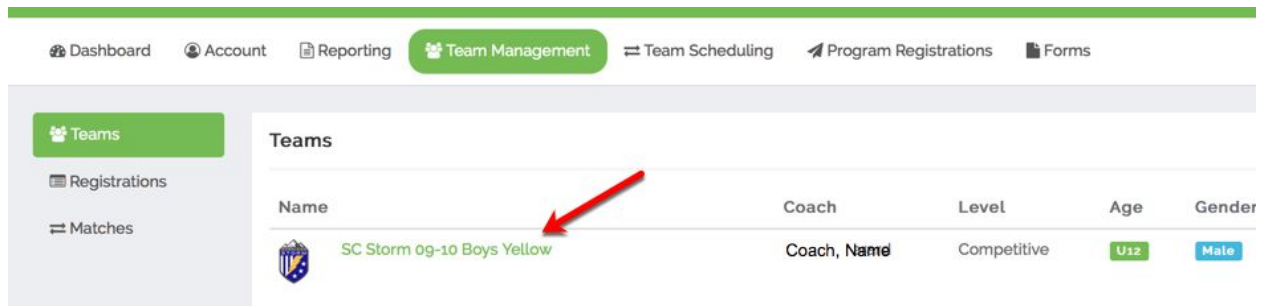

SECTION 1: CREATE YOUR GOTSPORT ACCOUNT

Log into GotSport via: <https://system.gotsport.com>

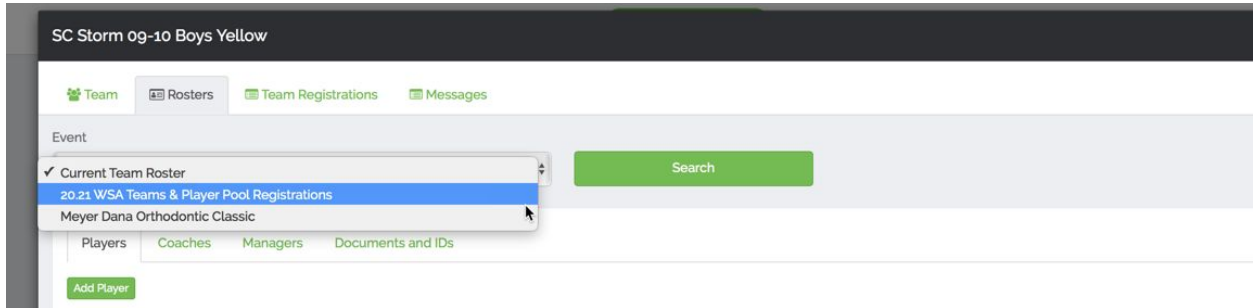

It should look like the screen below. Then click on the “Team Management” link at the top.

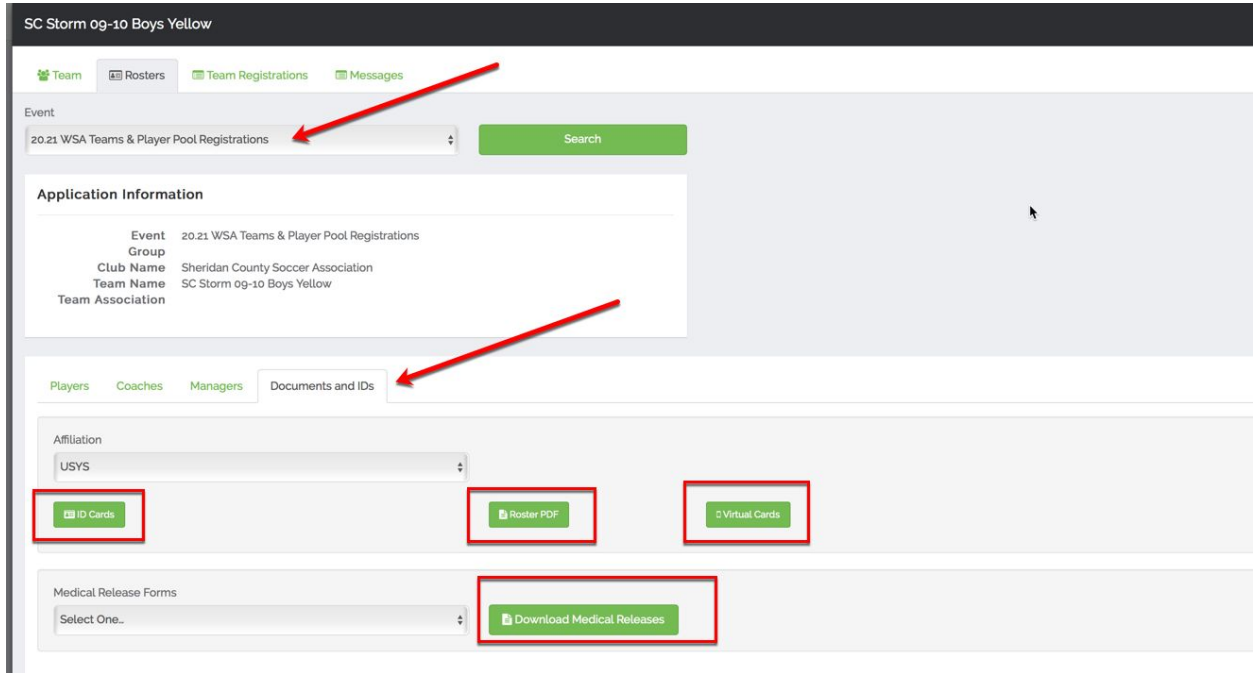

Then click on the team you want to look at:

From here you would think that what you see under rosters is what you need but you actually need to navigate to the dropdown to select WSA Teams & Player Pool Registration. This will show you your CURRENT roster with all the information needed.

Then click on the “Documents and IDs” tab towards the middle of the screen.

This will allow you to grab all the things you may need for a particular tournament and for online check-in's.

NOTE: I am figuring out more information as we go as to some of the other items such as how online check-in's will work. Thanks for bearing with the process, it hasn't been an easy transition.
